DETAILED ACTION

REASONS FOR ALLOWANCE

The following is the examiner's statement of reasons for allowance. The prior art does not disclose or suggest the following Claims 1, 10 and 14 limitations: "charger housing, a slot ... being recessed a ... depth from a front side... and an opening extending from a side of the slot in a traverse direction...wherein the upper body is mounted on the resting surface and the opening penetrates the charger housing from the front side to the rear side of the charger housing for providing a rotation space for the lower body of terminal." in combination with the remaining claim elements as set forth in Claims 1, 10 and 14, and its depending claims 3-9, 11-13 and 16-18. *Therefore* claims 1, 3-14 and 16-18 are allowed. Applicant's reasons regarding the clarity issues and Hahn are also relied upon here. It is noted that the term "wireless terminal" in the claim including "charger for a ...wireless terminal" is limited to wireless terminals of the type defined in the specification, for example that can hold a charge, and not merely a "terminal" as might be more broadly defined in a dictionary or trade journal. See *Phillips V AWH Corporation* 415 F3d 1303 (Fed. Cir. 2005).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
